

Dear User Group members,

I am writing to invite you to the Millennium Consulting Unit4 Financials Global Conference 2021.

The conference is back again for its eighth year, this year being held at the RSA, London on Friday 22nd October 2021 and we would like to offer the Dream and Financials User Group two complimentary tickets per organisation.

Millennium are pleased to announce Unit4 Global CEO Mike Ettlting will be speaking for the second year running. Presentations will also include a Unit4 Financials Product Update and Roadmap from Jane Dolan, Product Owner for Unit4 Financials, Cloud Migration from Benoit Dellaporta, Migration Sales Architect at Unit4, and various Millennium presentations on what's new product wise and tips on how to generate the best returns from your Unit4 Financials investment.

Refreshments will be provided throughout and there will also be the opportunity to network with other organisations who use Unit4 Financials and staff from Millennium, Unit4 and our sponsors.

We are also currently working towards getting the conference CPD approved, so if you or your team are in a role that requires engaging in Continuing Professional Development you should be able to use your attendance as training and Millennium will provide certification.

To register for your free ticket, please visit the event website <http://www.u4fc2021.com/> Follow the process as if you were purchasing a ticket, but use the promotion code **GROUP** and your tickets will be discounted by 100%

We do hope you will be able to come and if you have any queries please get in touch.

All the best,
Sam Guilding
Marketing Manager
